Ooh, baby, you look good enough to eat
I'd like to flip around the world with you
I'd like to lick your bottoms of your feet
And drink fizzy booze from your shoes

Yeah, inside out and upside down with you
I'd like to go around the world with you
From your bottom to your top you're sure some lollipop
Inside out and upside down with you

Oh baby, you know I'm knee deep in love with you
Ooh, the vision and the taste of your flesh
Your candy kiss, your orange lipstick too
The nuclear fission of your love factor F

Oh, inside out and upside down with you
Yeah, I'd like to go around the world with you
From your bottom to your top you're sure some lollipop
Inside out and upside down with you

Oh, I got my pants around my ankles over you
It's frightnin', the lure of your bare trap
Yeah, I'm gonna scare the pants off you too
Wet your appetite 'til our loves overlap

Oh, inside out and upside down with you
Yeah, I'd like to go around the world with you
From your bottom to your top you're sure some lollipop
Inside out and upside down with you

Yeah, inside out and upside down with you
Oh, oh, oh, inside out and upside down with you
