What I don't know can never hurt me  
I live a life that's working for me  
What I respect, you just can't see  
What you expect, I'll never be primitive

That's how I'll live, primitive  
I take what you give 'cause I love  
And I live primitive  
The things I do you'd never try

What I get free, you have to buy  
I'm proud of my life but don't ask me why  
'Cause if I told ya, I'd probably

Primitive, that's how I live, primitive  
I'll take what you give 'cause I love  
And I live primitive, primitive  
That's how I live, primitive

I'll take what you give 'cause I love  
And I live primitive
