I've opened you to Infinity  
Through excruciating Pain  
In the Rite of  
Reciprocal Iconolatry  
I've imposed my perspective  
On yet another Sleeper

Pleasure to the point of Pain  
Pain to the point of Pleasure

Sedated Daimona  
Frozen in her moment of Glory  
Flesh sculpture

Offering her story

Goddess of incessant Grief  
Scared not to die but to live  
In the Rite of  
Mutual Divinication  
I've made you anew  
I've shaped you through

Into the Blood Fountain  
Human Shrine  
I've been cleansed  
For some time
