(copyright nazareth, tiflis tunes,inc.- ascap)

You are a girl from the country  
Your eyes remind me of the sun  
You came to visit in the city  
And won the hearts of everyone

You are a girl from the country  
Your hair is colored like the corn  
I have never been outside the city  
I am no friend to anyone

Chorus:

Country girl wont you stay a while  
Wont you stay a while with me  
Country girl wont you stay a while  
Let me see you smile for me

Lead

You are a girl from the country  
Before you came I was alone  
Please say youll take me to the country  
And let me share your country home

Chorus
