Do what you want baby
do what you want
do what you want baby
do what you want

get over there put your hands in your pockets
watch me walk over to the door and lock it
put your eyes anywhere
let me quickly give a good reason to stare
ill walk back to my sexy most slowly
we can do whatever you want to
but only if you follow my command
stop i didn't say you could use your hands
ooohh

in this game there is a lesson to be taught
the purpose is to export the power of our very thoughts
and see if you can

chorus

oh touch me with your mouth baby
think about it so hard till i feel it all over
all over
all over
can you move me with your mouth baby
think about is so good till i feel it all over
all over
all over

standing at attention but your still sitting
baby i can tell that the thought that im getting
kinda good to ya
think of everything that you want me to do to ya
and ill do it to you

watch how i move baby
