(Verse 1:)

Baby don't you be so mean  
I try to keep my conversation clean  
But you the flyest thing i seen (yeah)  
Since i came up in here, you a superstar my dear  
I dont wanna waist your time (won't waist your time)  
With no corny playa lines (corny playa lines)  
But girl if you don't mind  
I will love to occupy the space right by your side

(Chorus:)

Girl can we chill  
Talk about leavin' together sure we will  
But just for now don't let my champagne spill on you  
As you make your move to the floor, floor, floor, floor  
Girl can we chill  
Talk about leavin' together sure we will  
Later i'll do everything you want me to  
Makin love to you  
Beg for more, more, more, more

(Verse 2:)

Shawty speakin' honestly (speakin honestly)  
I can picture you and me (picture you and me)  
Bein ever so discreet (ever so discreet)  
Disappearin to the back of this club imagine that  
Baby, dont get mad at me,  
No baby girl i was just playin

Unless you really wanna go  
Your in control, just let me know  
But right now my song is playin  
Lets take it to the floor

(Chorus:)

Girl can we chill  
Talk about leavin' together sure we will  
But just for now don't let my champagne spill on you

As you make your move to the floor, floor, floor, floor  
Girl can we chill  
Talk about leavin' together sure we will  
Later i'll do everything you want me to  
Makin' love to you  
Beg for more, more, more, more

(Bridge:)

Ooh, don't wanna rush lets take it slow  
Enjoy the night babe  
Then you decide if you want to  
Get to know me on a physical side  
Baby tonight lets get right

(Chorus:)

Girl can we chill  
Talk about leavin' together sure we will  
But just for now don't let my champagne spill on you  
As you make your move to the floor, floor, floor, floor  
Girl can we chill  
Talk about leavin' together sure we will  
Later i'll do everything you want me to  
Makin love to you  
Beg for more, more, more, more
