(talking)

hello & welcome

to common sense 101

i am your professor

i go by the name of ne-yo

now i will not sit here n say i kno it all

but i kno enough

and im here to help

so if you take your seats

we can begin

lets go

verse 1:

said well i don't kno what yall been told

but there aint many

house wives that once was hoes

do we normally happen that way

the answer is no

so what u tryna test it for

and so u met her in a club

rubbin on u cus of who u thought she was

she put it on you thats wassup

but now your talkin bout how your in love

well if she was trickin when you met her

what makes you think that she aint trickin now

and if she had a boyfriend when y'all hooked up

what makes you think that she wont mess around

its just common sense

think about it, bout it

think about it, bout it

think about, about it

its just common sense

think about it, bout it

think about it, bout it

think about, about it

girl i don't kno what you dreamin bout

how you are happy
because your with him now

but he left her to be with u
and baby girl i strongly doubt
that with you he gon take a different route

he come n see u every day
smellin like them vicky secret body spray
girl u kno
either he creepin or he gay
baby that aint nothin u need either way

well if he was trickin when you met him
what makes you think that he aint trickin now
and if he had a girlfriend when yall hooked up
what makes you think that he wont mess around

its just common sense
think about it, bout it
think about it, bout it
think about, about it

its just common sense
think about it, bout it
think about it, bout it
think about, about it
