Wowow

Hey ey hey ey hey ey

Mmm mmm

He used to put me up one day

Show me what to look for

Wanted his eyes

So that I wouldn't get to fall

Everything I had by a fella

Knew the right things to say

And I was a real good student, knew it

So when he was trying to gave me, couldn't do it

I thought he was looking out for me

Never ever thought he'd turn out to be...

He use to tell me,

Watch out for heartbreakers

All they do is take your love and leave

I never thought that he'd turn out to be

The heartbreaker that he warned me 'bout

He told me

Watch out for heartbreakers

All they do is take your love and leave

I never thought that he'd turn out to be

The heartbreaker that he warned me 'bout

He used to tell me a playa

Would say just about anything to lay her down

See ya later

Opening my eyes but blinding me at the same time

I can't name nobody, ooh I really wish that I could

blame somebody

But it was my fault, had me so wrong

Not paying attention

That's where I went wrong

He use to tell me,

Watch out for heartbreakers

All they do is take your love and leave

I never thought that he'd turn out to be

The heartbreaker that he warned me 'bout

He told me

Watch out for heartbreakers
All they do is take your love and leave
I never thought that he'd turn out to be
The heartbreaker that he warned me 'bout

Oooh ooooo
Silly me, silly me
I was so busy stressing
That I forget the first lesson
'Keep your eyes open at all times'
Wooo
silly me, silly me
now I'm promising myself
I'm only fallin' for the one time
Mistakes I learnt from mine
What I learn is...

Watch out for heartbreakers
All they do is take your love and leave
I never thought that he'd turn out to be
The heartbreaker that he warned me 'bout

He told me
Watch out for heartbreakers
All they do is take your love and leave
I never thought that he'd turn out to be
The heartbreaker that he warned me 'bout

Watch out for heartbreakers
All they do is take your love and leave
I never thought that he'd turn out to be
The heartbreaker that he warned me 'bout

He told me
Watch our for heartbreakers
All they do is take your love and leave
I never thought that he'd turn out to be
The heartbreaker that he warned me 'bout

Hey ey hey ey hey ey
