Tired as hell and I can't catch my breath
Been fighting so long I just aint got nothing left, Are we
done?
Cause I can't take it anymore, I just cant take it
Been so long since I was close enough to smell your
smell
You're telling me the love is still good, if it is girl I can't
tell, Are we done?
Cause I can't take it anymore, said I just can't take it

Oh girl there ain't no tears to cry
I think its over, I think its over
We both know this love has died
I think its over, I think its over
Cause I just can't take it anymore

You say in trippin when I tell you that we've changed
But your friends, my friends and everybody saying the
same thing, Are we done?

Cause I can't take it anymore, I just can't take it
I've been noticing the way you get dressed up to go to
the store
And its right around the corner but you'll be gone for
an hour sometimes more
I ain't the one, and I can't take it anymore, said I just
can't take it anymore

Oh girl there ain't no tears to cry
I think its over, I think its over
We both know this love has died
I think its over, I think its over
Cause I just can't take it anymore
