no tears, no tears no more done cryin' now
no pain no pain, said i found another way
no games, not like before now up here on this cloud
no time for yesterday, now let me explain

got a new woman, lovin me in every way that she can,
all she wanna be is part of my life,
save to say that im in a better way, better way hey

got a new woman loves to walk around just holdin my
hand
cupid must have found us now i like that
lovin this woman

does anybody understand
that i'm in love (love love)
and i think i found the real thing (real love)
gotta love to make ur heart say(lovelove)
you got me singin' lalalalala

that i'm in love (love love)
and i think i found the real thing (real love)
gotta love to make ur heart say(lovelove)
you got me singin' lalalalalalalala

no stress, no fuss, no fight when i'm in her arms
no time no day no night (no nothin better noo)
so much more than okay, life is made of this
no her, no me , no way

now let me explain
got a new woman, lovin me in all every way
that she can, all she wanna be is
part of my life, save to say that im in a better way
better way

got a new woman loves to walk around just holdin my
hand

cupid must have found us now i like that
lovin this woman

does anybody understand
that i'm in love (love love)
and i think i found the real thing (real love)
