Thought I get to see your face again,
But my flight got canceled wouldn't stop raining
So two days three flights later I touchdown
But there was trouble with you family and now your
outta town
And I don't like it no this ain't cool
Feeling like there's something just don't want me near
you

The world keeps getting in the way
Trying to get to you but it seems like everyday is
something new
Baby the world keeps getting in the way
With you is where I wanna be but it just wont let me
Cause it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
Keeps getting in the way
Said it keeps getting in the way
[In This Way Lyrics On]
And now were in the same state
But I be in the studio working extra late (5 in the
morning)
And finally I get to leave (im comin home to you)
But by the time I get there your already fast asleep
And I don't like it no this ain't cool
Feeling like there's something just dont want me near
you

The world keeps getting in the way
Trying to get to you but it seems like everyday is
something new
Baby the world keeps getting in the way
With you is where I wanna be but it just wont let me
Cause it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
Keeps getting in the way
Said it keeps getting in the way

And I don't like it no this ain't cool
Feeling like there's something just don't want me near
you
Baby The world keeps getting in the way
Trying to get to you but it seems like everyday is
something new
Baby the world keeps getting in the way
With you is where I wanna be but it just wont let me
Said it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
Keeps getting in the way
Said it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
Keeps getting in the way
Said it keeps getting in the way

Keeps getting in the way
Said it keeps getting in the way
Keeps getting in the way
