Is it me or did I just catch you digging on me
Girl if you like what you see
You must be reading my mind
Cause girl I'm checking for you to.

It's so incredible, just how you came to me
Girl it's like deja vu when I look at you (yeah)
It's undeniable, that you were meant for me
Girl like the morning light shine, you were here by
design

So lets go all night long
I just got to have you
I can't wait no more
Your body's talking to me
Lets get on the floor
So we can do the dizzle all night long
All night long

Baby we should get out there and make history
The chemistry is right between you and me (yeah)
Girl we can make this our song and we can party till the
dawn
It's incredible

It's so incredible, just how you came to me
To me, it's like deja vu every time I look at you
It's undeniable, that you were meant for me
Like the morning light shine, you were here by design

So lets go all night long (oh yeah)
I just got to have you
I can't wait no more
Your body's talking to me
Lets get on the floor
So we can do the dizzle all night long
All night long

Girl the party life
I can tell that you been here before, that's cool
But don't act so innocently

Girl I can tell you can move your body
Girl come on!
C'mon, dance all night,
Baby, yeah, yeah, yeah

So lets go all night long
I just got to have you
I can't wait no more
Your body's talking to me
Lets get on the floor
(Loudly, I can hear baby)
So we can do the dizzle all night long
(loudly)
All night long

All night long
I just got to have you
(Hee, Hee, Hee)
I can't wait no more
(Can't wait no more)
Your body's talking to me
(ya body's talking to me girl)
Lets get on the floor
So we can do the dizzle all night long
All night long.
