Keep on talking  
Keep on talking  
Keep on talking

DJ Coco, bring that shit on

Please Continue doing what you do  
Talk your shit all day, keep going  
It's nothing (I love it)  
And no, don't you hesitate  
To crucify me for mistakes  
Cause Lord knows you ain't never made none  
It's ok, think nothing of it (I love it!)

One page of my story  
One scene of my life  
Magnify what I do wrong  
But ignore what I do right  
And you feel that I'm supposed to care what you do  
with your life  
Kicking dirt all in my face  
But I'm still supposed to play nice

How about this  
Imma kiss who I wanna kiss  
Imma dance how I wanna dance  
Smoke my weed, love my man  
Doing my shows and wear my clothes  
Talk about sex and do it often  
Until I'm dead and in my coffin  
And imma keep living until they keep on, keep on

Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
It's nothing (I love it!)

Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
It's nothing (I love it!)

How don't you see  
That what you did  
It don't make me shit  
But fuck it, it's nothing (I Love it!)  
And no matter what you call it  
Imma success-a-holic  
Not accustomed to falling it  
good at all of it regardless  
So keep talking about public and private  
My life is always the subject  
But if you like it  
I love it!

One page of my story  
One scene of my life  
Magnify what I do wrong  
But ignore what I do right  
And you feel that I'm supposed to care what you do  
with your life  
Kicking dirt out in my face  
But I'm still supposed to play nice

Hey, how about this!  
How about this  
Imma kiss who fuck I wanna kiss  
Imam dance how the fuck I wanna dance  
Smoke my weed, love my man  
Doing my shows and wear my clothes  
Talk about sex and do it often  
Until I'm dead and in my coffin  
And imma keep living until they keep on, keep on  
Talking

Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
It's nothing (I love it!)

Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
Keep talking, Keep talking, Keep talking your love  
It's nothing (I love it!)
