ooooohhhh... mmmm  
Sitting around my place  
Staring at the ceilings  
Thinking about your ice cream skin...  
Damn you make me lazy  
When I get this feeling  
I don't wanna do nothing  
But think about the next time.. (ooh)  
Another position..  
Sexy poster put you in  
It's like as soon as I get done  
I'm asking permission; baby can I do it again?

Baby, baby  
When I think of you you got me licking my fingers  
Thinking about the things you do..  
Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through  
When I think of you you got me licking my fingers  
Thinking about the things you do..  
Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through

Ooh driving in my car  
Start to reminisce  
When you was with me last  
In the back sit  
One lil' bit too far  
Caught my attention  
Don't you know I almost crashed  
Dnd even if I did;  
That's ok  
Because your sexual healing  
All I need to be alright

Fantasizing about you all day  
Morning to the evening  
I'm just toward the night  
Ooh baby

Baby, baby  
When I think of you you got me licking my fingers  
Thinking about the things you do..

Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through  
When I think of you you got me licking my fingers  
Thinking about the things you do..

Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through

Wondering when you gonna come back through mmm  
x3

Oooh oooooh ooooooooooh

Baby, baby  
When I think of you you got me licking my fingers  
Thinking about the things you do..

Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through  
When I think of you you got me licking my fingers  
Thinking about the things you do..

Baby, baby  
When I think of you you got me biting my lip  
Wondering when you gonna come back through
