Don't start complaining baby I know you
So far, relationship are nothing new
Same old you

You're just a a lover, lover, lover
You're not a friend, friend, friend
You're only here for fun, no need to pretend, tend,
tend
I'm just a good time, something you can hold on to
At night, we don't have a future
So I'm moving on cause I know you
You ain't nothing new

Reading from the same old script
Tell me to hold on, coming out with empty promises
I'm so over it

You're just a a lover, lover, lover
You're not a friend, friend, friend
You're only here for fun, no need to pretend, tend,
tend
I'm just a good time, something you can hold on to
At night, we don't have a future
So I'm moving on cause I know you
You ain't nothing new
Good time, something you can hold on to
At night, we don't have a future
So I'm moving on cause I know you
You ain't nothing new

I'm just a good time, something you can hold on to
At night, we don't have a future
So I'm moving on cause I know you
You ain't nothing new
