Okay
I woke up
In heaven today
She kissed me
I floated away, away
Never felt
Anything so great
Alright
Now I brace myself
For the fights
I'm light
As a feather tonight

[Chorus:]
Cause I can't feel
The ground
Someone let me down
I never felt so high
As I do now
It's too good
To be true
I don't deserve you
I never felt a love
Strong enough to
Stop this world
From spinning
Stop this world
From spinning

And I see
Heaven
When she looks at me
In her smile
Is the most
Amazing dream
And in her eyes
I fall asleep
And I hope
Hope that she can see
Through the smoke
Of my imperfections
Into my soul

And my heart
Where she has control
(Se has control)

(Chorus)

Happiness
Like this can never last
(Can never last)
Turns into
The memories of the past
(Turns into
The memories of the past)
(Going just as fast)

(Chorus)

And I can't feel
The ground
Someone let me down
I said
I've never been
So high
As I am now
It's too good
To be true
I don't deserve you
I never felt a love
Strong enough to
Stop this world
From spinning
Stop this world
From spinning
