

Ne-Yo "Stress Reliever"

Visit "[Stress Reliever](#)" on MotoLyrics.com

I could be tired, but you wake me up with it
I could be busy, I make time to go get it
We could be beating, thatâ€™s when she starts to flirt
Looking at me, talking bout, that it bring me my desire

[Chorus]

She knows what she doing
She knows what that does
Everytime she do it, set it off, no matter what, oh, oh
She knows what she doing
She knows what I love
Everytime she do it, set it off, no matter what, oh, oh
She set it off no matter what

She tells me things like,
Things like Iâ€™m her favourite flavor
And thereâ€™s not a lollipop, that could ever compare
ya
Uh, stress reliever, service to her king
She say daddy fiend me,
And I know just what she mean, uh, whoa

[Chorus] x 2

She knows what she doing
She knows what that does
Everytime she do it, set it off, no matter what, oh, oh
She knows what she doing
She knows what I love
Everytime she do it, set it off, no matter what, oh, oh
She set it off no matter what.
