your mind is stressin
your story tellin is impressin
i may have honestly believed it
if i hadnt seen it with my own eyes

but seriously
this thing is over u can trust me
before u go jus for old times sake
how bout u hit me with one more like
cus this is good lie

come on
your car broke down
and u lost your cell phone
baby that's entertainment
baby that's entertainment

your homeboys left so
she gave you a ride home
baby that's entertainment
baby that's entertainment

stop it
you got my stomach hurtin
boy i aint laugh like this in weeks
okay now you can

drop it
see that was funny but now
get out so i can go to sleep

you tryin to explain
boy i was there i saw u
dnt tell me as if i don't kno

but go ahead and explain
ill let u get another
one more lie but then u gotta go

the lipstick on your collar
it came from your motha

baby thats entertainment
baby thats entertainment

u went to see her then came home
come on now brotha
baby thats entertainment
baby thats entertainment

u got her number for your friend
cus his phone was dead
baby thats entertainment
baby thats entertainment

you're out your mind if u think ima believe
anything you said now
baby thats entertainment
baby thats entertainment

everything we had was all for nothing
nothing
ooh
ooh
ooh
ooh
but baby boy that moment has passed
go get your bags
oohhh

the lipstick on your collar
it came from your motha
baby thats entertainment
baby thats entertainment

u went to see her then came home
come on now brotha
baby thats entertainment
baby thats entertainment

u got her number for your friend
cus his phone was dead
baby thats entertainment
baby thats entertainment

you're out your mind if u think ima believe
anything you said now
baby thats entertainment
baby thats entertainment
