[verse 1]

And I don't really know what the hell I'm doing,  
I could be walking, down the street,  
And if a guy notices me,  
Then you get upset  
But if I'm walkin with you holdin hands and kissin,  
Anybody can see what that means,  
Should I wear a sign that says don't look at me?  
Baby I'm all yours,  
Kissin and huggin, all in public,  
What do you think that's all for?  
I don't give a damn bout nobody but you,  
But you always question, thinkin I'm creepin, without a  
reason,  
Why are you always tressin?  
lemme ask you a question

[chorus]

Tell me, what,  
Oh, don't you understand?  
Doing all I can, you don't know that I'm your woman  
What, oh, don't you understand?  
If I wanted someone else,  
Then I would be with someone else but all I want is you

[verse 2]

And it's getting annoying (annoying),  
And I can't prove with what I think,  
That you been checking me, for me, all on my  
cellphone  
But if you dont then just leave what with me youre  
calling,  
What I gotta do to make you see?  
Tell me something boy cause this is killing me  
Baby I'm all yours,  
Kissin and huggin, all in public,  
Why do you think that's all for?  
I don't give a damn bout nobody but you,  
But you always question, thinkin I'm creepin, without a  
reason,  
Why are you always tressin?

lemme ask you a question

[chorus]

Tell me, what,

Oh, don't you understand?

Doing all I can, you don't know that I'm your woman

What, oh, don't you understand?

If I wanted someone else,

Then I would be with someone else but all I want is you

[verse 3]

And I'm at my wits end (and I'm at my wits end),

Cause there's nothing else that I can do (nothin else  
that i can do),

If you just dont care,

Maybe I should just be done with you,

But I don't want to

[chorus]

Tell me, what,

Oh, don't you understand?

Doing all I can, you don't know that I'm your woman

What, oh, don't you understand?

If I wanted someone else,

Then I would be with someone else but all I want is you
