Time stood still the other day  
Just stopped cuz of the way  
That he kissed me  
The day shared the sky with the night  
Both Sunshine and Moonlight  
Cause he kissed me  
And the waters all sit still in the ocean  
And the birds that fly above just froze in the air  
Froze in the air

(Chorus)  
When he kissed me (x2)  
I closed my eyes and died a little  
Opened them and cried a little  
When he kissed me (x2)  
It was everything I thought that it would be  
When he kissed me

She said through the tears that she cried  
That she knew how I felt inside  
When he kissed me  
And I saw pain behind her eyes

Just couldn't figure why  
It was a mystery  
She said, "I bet the waters all sit still in the ocean  
And all the birds just froze  
Is that how it goes?"  
(So I asked her)  
"How do you know?"  
She said

"Cuz he kissed me  
Yes, he kissed me"  
She said she closed her eyes and died a little  
Opened them and cried a little  
When he kissed me  
When he kissed me  
She said it was everything she thought that it would be,  
mmm

(Original chorus 1x)
