Look in my eyes  
Tell me what you see  
Do you see perfection in me  
To you do I look complete  
Now take one more look past my celebrity  
That's where you'll find the real me  
To you do I still look the complete

Bridge:

I got me material thing than I could ever need  
I got the love from my fans that adore me  
And I'm grateful  
And I thank you so very much  
But my love for myself is lacking a little bit  
Just a little bit  
I can mend it I'm working on it  
Staying faithful  
And what I'm trying to say is

Chorus:

Just like you  
Sometimes I get down  
Sometimes I just wanna cry  
Sometimes I get depressed  
And just like me  
Trying to be complete (trying to be complete)  
Just understand we're all just a work in progress

Verse:

Life can be difficult  
No one promised there would be  
Sunshine, all the time  
Easy  
Some pain is guaranteed  
But it ain't impossible  
You can find the joy you see  
Took me a while but I did find me  
Open your eyes and you will see

Chorus:

I'm just like you

Sometimes I get down  
Sometimes I just wanna cry  
Sometimes I get depressed  
Just like me  
Trying to be complete (trying to be complete)  
Just understand we're all just a work in progress  
Bridge:  
Anybody knowing what it is to struggle  
Never ever running in the face of trouble  
Said I'm with you (I'm with you)  
I feel you (I feel you)  
I'm with you

Just like you  
Sometimes I fall  
But don't we all  
Baby I feel your pain  
We're all the same  
We're all the same

Chorus:  
I'm just like you  
Sometimes I get down  
Sometimes I just wanna cry  
Sometimes I get depressed  
Just like me (Just like me)  
Trying to be complete (trying to be complete)  
Just understand we're all just a work in progress  
Work in progress

Just like you (yeah, yeah, yeah)  
Sometimes I get down (yeah, yeah, yeah)  
Sometimes I just wanna cry (can you feel me, can you  
hear me)  
Sometimes I get depressed  
Just like me  
Trying to be complete (trying to be complete)  
Just understand we're all just a work in progress
