

## Neaera "The Orphaning"

Visit "[The Orphaning](#)" on MotoLyrics.com

Storm and sea  
Punish us piece by piece  
But world economy must grow  
If we drown, we drown in luxury

Why should we save lives we'll never meet?  
Why should we not destroy?  
... ourselves

We're dancing to the end on volcanoes  
Screaming pantomimes in our ears  
At night, we set our beds ablaze  
Orphaning the future - orphaning ourselves

The change we cause  
Will slowly destroy your tiny world  
And you have nothing to say  
You're helpless  
Consumed

Why should we save lives we'll never meet?  
Why should we not destroy ourselves?
