This massive gallery of killing tools  
A mad number of technological miracles  
Weapons not only kill their targets  
They also kill those who pull the trigger  
Violence - the language of the weak  
Let the pen be mightier than the sword  
Wartime absurdity  
Is economy's prosperity  
Greed over conscience  
Mothers weep over their dead sons' bodies  
While prices are rising on the stock  
One man's sorrow - another man's pleasure?  
Is that it?  
All these victims of greed and loss  
All these pictures you cannot forget  
Let the pen be mightier than the sword  
A soldier's innocence  
Devoured by fierce memories  
Tamed, deceived  
Enslaved by power  
Lost, devoured  
Consumed with trauma  
Enslaved by power  
The World Devourers
