#### Crossing Over

And so the journey starts  
Communion of our hearts  
He led me to a place beside the water  
And as our season grew  
The time came when I knew  
My path led from among my band of brothers

And I can't describe how hard it was  
Or how much we loved each other,

But to go on with the summer  
On with the tide  
To go on I must surrender  
The fullness of my life  
And I'll love you forever  
But I must say goodbye  
To go on I must cross over  
A voice says deep inside  
Carry on  
Carry on  
Carry on  
Carry on

And so he brought me to a life I never knew  
He's leading me to the bridge across forever  
He saved the saddest one  
Who thought his life was done  
He gave me a new heart just like my daughter  
And he's blessed me more than I can tell  
And now all that I desire,

Is to go on with the summer, on with the tide  
To go on I must surrender  
The fullness of my life  
And I'll love you forever

But I must say goodbye  
To go on I must cross over  
A voice says deep inside

Carry on  
Carry on  
Carry on  
Carry on

To go on with the summer  
On with the tide  
To go on I must surrender  
Everything inside  
To go on to forever  
Where all tears are dried  
When it comes to crossing over  
I'll hear you deep inside  
Say carry on (On to forever) (I am willing)  
Carry on (On with the tide) (I am broken)  
Carry on (On to forever) (I am willing)  
Carry on (Where all tears are dried)  
(I am broken)

Carry on to the heart of the sun

Mercy Street Reprise

Love knocked upon my door one day  
In the midst of my suffering  
How can a dream so far away  
Become a blazing reality, YEAH!  
In the house of the rising sun  
Still the snow falls down on mercy street  
We're awaiting to become one  
But we LOVE  
For now  
As the snow falls  
Down on mercy street
