Come down off your throne
don't leave this man alone
Lord I want to change
You are the reason
I've waited so long
Lord I know You hold the key

Hear in the end
I almost got the time
And I know that You can help me
Find my way back home
Find my way back home
Find my way back home

Come down off your throne
Don't leave me all alone
Lord I want to change
You are the reason
I've waited all these years
Lord I know You hold the key

Near in the end and
I almost got the time
And I know that You can help me
Find my way back home
Find my way

Near in the end and
I almost got the time
And I know that You can help me
Find my way back home
Find my way
Lord I know
Lord I know You hold the key
To me
Lord
