Incidentally there should some changes made.
You've got to work if you should have to save.
An apple is a fool but lemons never do forget.
You've got to play it cool before they come and throw
the net.

Wait a while and straighten out the tie you wear.
You've got to take it easy if you dare.
An apple is a fool but lemons never do forget.
You've got to play it cool before they come and throw
the net.

Don't be blind, you've got a thinking mind.
Stop the bells that ring so loud.
Don't nod your head, you'll draw a crowd.
Just think of everything you've worked so hard to bring.
The lemon sings my song. He's known it all along.
