Gone - that moment just passed by  
It's written in the sky out there  
I hope it's somewhere  
Pictures - the remnants of our lives  
No camera can see quite that far  
It can't see how we are

**CHORUS:**

I hope when I die  
I can somehow still be with you  
And re-live right now  
That's all I really want to do  
If time forgets when we were together  
I hope the angels will remember

Smiles a million lifetimes wide  
And all the tears we've cried can't be  
Like drops in the sea  
The big screen  
That flashes at the end  
I hope it lifts us high and then I will get  
To see you again

I hope when I die  
I can somehow still be with you  
And re-live right now  
That's all I really want to do  
If time forgets when we were together  
I hope the angels will remember

Take a picture of this with your heart and keep it safe  
forever  
Take a picture of us with your heart and we will be  
together

I hope when I die  
I can somehow still be with you  
And re-live right now  
That's all I really want to do  
If time forgets when we were together  
I hope the angels will remember

Gone - that moment just passed by.....
