Some people think
Think they have none
They might as well stay down
Running in circles
Like bulls in a ring
'Til the sword finds it's way down

While the creep beats the rap on appeal
And the cop who can't stop
Shows the kids how to steal

And we all need some light now
We all need some light now
Yes, we all need some light now
Turn on your light
And wash the darkness away
Yeah

Hey you on the brink
Waiting to fall
To become human surplus
The movie's still shooting
You might still get the roll
And man it's all just a circus

But the clown left town long ago
Maybe he'll come back and give us a show

And we all need some light now
We all need some light now
Yes, we all need some light now
Turn on your light
and wash the darkness away

Solo

Yes we all need some light now
We all need some light now
Yes, we all need some light now
we all need some light
we all need some light

Are you waiting for the sword
to find its way down
Remember when the sun was in your eyes
Yes we all need some light now
Turn on your light
And wash the darkness away
