Like stars from the world above you  
Bright dreams from the world inside  
Bright scenes scattered all around you  
And each scene shows you who you are...

It's all the same when you think about it  
Not much to say and I don't much mind..  
I like today, there's a gleam about it,  
That shows the way to who knows what you'll find..

I know it could all fall for you  
I know cos it's all beautiful  
I know it could all fall for you  
Hey yeah yeah it's only natural ..

And here we are on the gold grey beach  
With the sun and the sand and the waves at our feet  
And there are a million grains  
and like diamonds they glisten  
To the sound of our days while the old breeze listens

I know it could all fall for you  
I know cos it's all beautiful  
I know it could all fall for you  
Hey yeah yeah it's only natural...  
Just look at that...Hey look at that !  
Well, it reminds me of the place you showed me  
I know it was you  
It reminds me of the thing you told me  
I know it was true...

I know this won't last forever  
But I'm happy now  
Yeah I feel much better..  
Something in the sky tells me I could be happy  
Something in your eye makes me feel sort of carefree  
Something in the sky tells me I could be happy  
Something in your eye makes me feel sort of carefree...

Sometimes life can all fall for you  
Yeah yeah yeah sometimes it's all true  
I know it could all fall for you

yeah yeah yeah it's all beautiful
