Bright stars from the world above you  
Bright dreams from the world inside  
Bright scenes scattered all around you  
And each scene shows you who you are

It's all the same when you think about it  
Not much to say and I don't much mind  
I like today, there's a gleam about it  
That shows the way to who knows what you'll find

I know it could all fall for you  
I know 'cause it's all beautiful  
I know it could all fall for you  
Hey yeah yeah it's only natural

And here we are on the gold gray beach  
With the sun and the sand and the waves at our feet  
And there are a million grains and like diamonds they  
glisten  
To the sound of our days while the old breeze listens

I know it could all fall for you  
I know 'cause it's all beautiful  
Hey yeah it is only natural  
Yeah yeah it's all beautiful  
Oh look at that  
Hey look at that

Well, it reminds me of the place you showed me  
I know it was you  
Yeah it reminds me of the thing you told me  
I know it was true

I know this won't last forever  
But I'm happy now, yeah I feel much better

Something in the sky tells me I could be happy  
Something in your eye makes me feel sort of carefree  
Something in the sky tells me I could be happy  
Something in your eye makes me feel sort of carefree

Sometimes life can all fall for you

Yeah yeah yeah sometimes it's all true  
I know it can all fall for you  
Yeah yeah yeah it's all beautiful
