Dark Angel

My eyes are closed but I can see you coming  
Without a sound I can hear your longing sigh  
My skin awaits your aching kiss on my neck  
I'm awaiting you, my dark angel

So take my hand with your bloody claws  
Let us fade away on raven's wings  
To take the great emptiness beyond the sky  
The castle of silence, my dark angel

All the fears made my brain rotting  
And slowly till infinity  
I'm drifting into insanity  
But I know that you will come

Come to drink me red wine from me  
Take it with my sorrows  
I'm longing for your bloody kiss  
Do not leave me alone, my dark angel

My eyes wide open, I perceive your shadow  
I open my lips for my last cry  
Open your eyes, it is just a dream  
When will you come, my dark angel?

Take the aching cry from my lips

The silence of oblivion is what I wish  
Heal my wounds with your gift  
Show me eternity, my dark angel

Beyond the Sky

When I walked through the gates of oblivion  
Screams of the forgotten died in my ears  
And the voice of silence started to cry  
Welcome the great emptiness - beyond the sky

Hands of despair seized my heart  
When I fell into the eternal darkness

The corridors of timelessness  
Squeezed my consciousness - beyond the sky

I passed the door of no return  
And the wind whispered a requiem  
In empty throne covered by frost  
In the castle of sadness - beyond the sky

And when I ascended the ancient throne  
I felt everlasting emptiness  
And as my brain starts rotting  
I saw eternity - far beyond the sky
