MURDER YOUR LIFE

Stab in your face with a butcher knife
That's really long, I'll make you feel this song
When I beat you down to it, I don't care if I appear
wrong
Kid I'll do it, I represent the death rap get your head
cracked open
Till we stare at your brains, I don't care if you think I'm
insane
'cause I take respect this serious, so if you disrespect
you're an idiot
Stick an ice pick in your neck, till you bleed like a period
Damn me kid fear me kid and if you don't,
You will when I put fear in you bitch, bring it to you
violently
Silently walk up to you, you have no idea it's me
Rock in a mask, poppin you fast with a glock with a
silencer
When you die it's aids, necro the sicko
Let go of my jacket you faggot let death blow
Die like a man if you can but you can't so you wont
'cause you're a male ho, yo I run this shit
Put guns to your tits, blast milk all over your cereal
Run your shit your clothes your shoes and if you refuse
Get your ass killed all over material
Brutal sadistic the only way to rip shit
Imma stay cryptic till the end of time
The only day you'll be dooper than me with a rhyme
Is when I quit this shit, it'll never go down like that
I'll still be around, from the ground I'll rap
As a corpse the verse that's striving to tell all demons
on earth
How to survive in hell

Chorus 2X

My death rap is attacking you,
You're getting stabbed in the brain with a verbal knife
You better watch your step and show some respect
Or else I'll have to murder your life

Chopping you up you fags, and dropping you in a
garbage bag
Off of a bridge, had every ligament frozen in a fridge
keeping it fresh
And it's all for the kids, beat you to death, stomping
your grill with combat boots
You fag get fucked, get murdered militantly to the best
of my ability
I'm gonna stay grotesque, no rest for the wicked, circle
the tyrant
Circulation of the virus, a perverted nation of violence
I converted pagans to commit my sins I'm a choke you
with the pen I write with
Get ready for the insertion excursion through your
jugular poisoning your blood
You were a death virgin, now you got fucked for the
first time in you life you're dead
How you like it? Can't come back ever again you better
get used to it, and make the devil your friend.

(Chorus 3X)
