Spring is here  
And the time is never near  
I want to tell you the truth  
But the truth I always fear

I'll say it now, now or never  
It's just a change of life, my depressing era

What if I'm wrong  
If I am a creature who has to stay  
Alone with rats and  
Decomposing corpses?

I am alone in my cell please  
Get me out of here, why do you fear?

Summer arrives now  
And gnats will suck your blood forever fast  
This was the time when you betrayed me  
And the summer breeze was turning you smiley  
What happens now if I take away  
That smile of your face  
And replace it with the tears I cried?

I lost my confidence in you  
You made me suffer, I'll make you too  
When you're affraid to look at the skies  
I pull the trigger in front of your eyes  
Are you affraid to see me here?  
Surprise, your end is getting near  
I'll make my self your biggest fear  
I'll be happy when you disappear

Autumn!  
Red, like the blood that you will spill  
Over my hands, you'll never be the same again  
Oh what pleasures you will give me now  
I didn't have them, I'll have them now  
No need to cry  
When you die

People change, I'm your worst enemy

I don't give a fuck, I am now free

I lost my confidence in you  
You made me suffer, I'll make you too  
When you're affraid to look at the skies  
I pull the trigger in front of your eyes  
Are you affraid to see me here?  
Surprise, your end is getting near  
I'll make my self your biggest fear  
I'll be happy when you disappear

Winter  
End of errors - return of my life  
Cold... Beautiful... Season!
