The smelling of the lifeless flower  
Spreads the poison across the ground  
Corrupts the vital source of humanity  
And erase them all

The smelling of the lifeless flower  
Spreads the poison across the ground  
Kills and spreads death among us  
And erase us all

Die with poison,  
The deadly poison of darkness  
Where angels won't rise

Smell the flower,  
Thy deadly flower from heaven or hell  
Or just an odd paradise

Of your death,  
Of your miserable death, of your sins  
In their recognizable disguise

Die with poison,  
Thy beautiful poison  
From an ancient man, majestic and wise

Die - with poison!  
Die - with poison!  
Smell - the flower!  
Of - your death!
