At your side I've always been  
You were blinded by the belief  
Too blind to see that I was here  
Too blind to see that I was hear  
Let me see deep in your heart  
Cause I am the light guiding your path  
I am the one who's from the sun  
Take my hand and follow me  
To a land where you'll be fre  
Behind the Mask of anyone  
It's your true self that you will find  
Leaving the mark  
Leaving the mass  
Behind
