Out of my bed late at night
All dressed up cuz I gotta look right
Anything to make you look my way
Put on my tie, and spike my hair
Gonna sneak out to meet you there
Going on a date to see a punk rock show
That's where all the cool kids go
That's where all the cool kids go

Everything I want everything I need always right in
front of me
I'll make you see that
Everything I am all the things I'm not doesn't matter
anyway
Another perfect day
Everything I want everything I need always right in
front of me
I'll make you see that
Everything I am all the things I'm not doesn't matter
anyway
Another perfect day

In my mind this band suck
They don't know a shit about rock
would have done much better if given chance
Need some gain on my guitar
I'm a natural born superstar
You would get a dollar for a dime
I don't care cuz there's no time
I'll rather hang out here and whine

Everything I want everything I need always right in front
of me
I'll make you see that
Everything I am all the things I'm not doesn't matter
anyway
Another perfect day
Everything I want everything I need always right in
front of me
I'll make you see that
Everything I am all the things I'm not doesn't matter

anyway
Another perfect day

Everything I want and everything I need
Everything I am and all the things I'm not
Another perfect day!
Another perfect day!!
Another perfect day!!!
Another perfect day!!!!

Everything I want everything I need always right in front
of me
I'll make you see that
Everything I am all the things I'm not doesn't matter
anyway
Another perfect day
Everything I want everything I need always right in front
of me
I'll make you see that
Everything I am all the things I'm not doesn't matter
anyway
Another perfect day

aah aah aah aah
aah aah aah aah
aah aah aah aah (doesn't matter anyway)
aah aah aah aah (Another perfect day)

aah aah aah aah (Another perfect day)
aah aah aah aah (Another perfect day)
aah aah aah aah (Another perfect day)
aah aah aah aah

Another perfect day!!!
