Accused of blesphamy, when your heart sank into me,
one more inch, and you have my heart perfectly, with
these lungs you breath, one last chance and your heart
will collapse, with these lungs of gold, you can't take it
away, you can't take these lungs you can't take this life
you can't take these feelings ive had all along, im tired
of losing myself in your eyes so caught up in this lucid
dream,, i can see your pupils dialating from the side of
this rotating glass ball, what kind of site is this, it's the
site of our chemistry rising like a ___-every beat,
whatever you say were alive were not dead, were
taking each step and were taking each breath of love,
then she said, so take these brutal hands and put them
away for a while, would you sweat if we asked you to
dance in the style, slick that hair back pop that collar,
would you sweat under pressure, will you stay, will you
stay here, will you dance, will you dance with me?
