Tell me do you feel it
Feel it when your heart starts letting go?
I'm unsure now if I could ever tell you no
I've been seeing traces of everything I used to know
was right
I can't leave now
I need you to remember
It's not like all my love was understood
(Chorus:)
Don't just tell me that it's over
I want to know how we can make it
I know I'm lost
I know I'm lost but not forsaken
Tell me do you want it
Want to make your heart stop goin' down?
I'm unsure now if I could ever make it out
I been seeing traces
Of why I wanted to be in this life
I can't leave now
I need you to remember
It's not like all my love was understood
(Chorus)
I'm not giving up,
I'm not laying down,
I'm not leaving without you
'Cause we're all the same,
We all need to stay
