Who killed the cheerleader?
you did... you did. Oh no.. it wasn't me at all
who raped the prom queen? he did he did
Yeah right and she was having a ball...

I asked her out, she laughed and said "no way"
told me she would never date such a geek
For that remark I say she's gonna pay
I hate when people call me a freak!

She's kissing with the football star
late at night in his car yeah
i was driven by an unknown force
feeling no remorse

Who killed the cheerleader?
you did... you did. Oh no.. it wasn't me at all
who raped the prom queen? he did he did
Yeah right and she was having a ball...

I asked her for a dance
she yelled "drop dead"
advised me to go join the other nerds
now i had it with that blonde little pet
with everybody else but me she flirts

I hid in in the locker room
watching when her hair she grooms oh yeah
driven by an unkown force
feeling no remorse

Who killed the cheerleader?
you did... you did. Oh no.. it wasn't me at all
who raped the prom queen? he did he did
Yeah right and she was having a ball...
