In the remembrance of a damned angel,  
The word of a man without past  
Resonates and the pain of that whip which  
Gave obedience to the lord  
And anger to the slave.  
In every laceration,  
Between blood and powder,

Lucifer's betrayal, pronounce your words and debone  
the celestial beast  
Lucifer's betrayal, making it's winged parasites  
shedders of blood

There was rebellion, but without shape  
And for an act of unkindness,  
An army of soldiers  
Arose to climb over horizons  
Which disappeared among the clouds,  
Descended to touch nobody's lands

Vassal and then lord,  
Free and our liberator,  
He watches over us

From tall trees  
On which stars escape,  
Lit by the divine lamp,  
Dragged by the eternal conflict

Let the devouring flames shine and heat  
The coldness of a sterile paradise  
Between drunk jugglers,  
Blessed brothers and sleeping fortunetellers.

Lucifer's betrayal, pronounce your words and debone  
the celestial beast  
Rebellious angel, making it's winged parasites faithful  
servants.

Lucifer's betrayal, pronounce your words and debone  
the celestial beast  
Rebellious angel, making it's winged parasites

shedders of blood.
