Same sources, same land
Different paths, different plans
What you value i despise
Unending thirst and greedy eyes
Wide roads lead to destruction
Many hands bent on production
Of everything that beats us down
Don't look for me, i won't be found

(chorus)

Socially, self impeachable
No turning back, unreachable
I'm skipping up out of your game
Keep your scene, forget my name

Finally cleared my life, finally cleared my mind
Right next to you, but you'll never find me
In the circles that you travel in
Loser am i? what did you win?
That hopeless half-life i don't miss
Or my chance to bow and kiss
This god you've named society
My coming back you'll never see

(chorus)

Same chance, same price
Save your breath and your advice
This world you can not sell to me
What we follow, you can't see
Leap of the camel, eye of the needle
The lost and lowly will form a people
In your midst, but far away
I see nothing to make me stay

(chorus)
