Lights out waiting for the midnight call
Times now, shadow's dancing on the wall
And all around, rising from the underground
(Underground)
We come alive, the fallen ones are back for more
(For more)

Children of the night
Soldiers of our time
Screaming out loud
One generation

Riot in the streets
Fighting in debris
Raise your fist high
The generation wild

One night of shattered glass and broken bones
The cure to medicate a restless soul
We're all around, revolution's at your door
(At your door)

So break out, break out
And celebrate once more, once more

Children of the night
Soldiers of our time
Screaming out loud
One generation

Riot in the streets
Fighting in debris
Raise your fist high
One generation

Children of the night
Soldiers of our time
Screaming out loud
One generation

Riot in the streets
Fighting in debris

Raise your fist high
The generation wild

Lights out
We are back against the wall
Time won
We have held in chains till dawn

But we survive
The streets are waiting in the dark
We're breaking out of fear and doubt
We stand up screaming on the wall

Nothing's gonna hold us down
Waiting for the midnight

Children of the night
Soldiers of our time
Screaming it out loud
One generation

Riot in the streets
Fighting in debris
Raise your fist high
One generation

Children of the night
Soldiers of our time
Screaming it out loud
One generation

Riot in the streets
Fighting in debris
Born to die free
One generation, the generation wild
