V1:

Tonite I try to change my way of melodie
To plz your lusts and make myself a company...
The pain I cause aint worth the time you lay'd on me
Coz tonite I think it's up to me to make it real...

Middle:

Thou I fought before
Now I wanna struggle more
You're the one I'm living for...

Chorus:

Oh your love is a serious burning
And my eyes are the mirror of pain
In the depths of my heart I am learning
To make you smile again...

V2:

Tonite I celebrate the love we share
Oh can you feel the love I'm giving you I'm always
there...
The loneliness been knockin on your door for far to
long
And I hope to see the faze of warmth that has been
gone...

Middle:

The sun is rising
Over lost horizons
I pick a star and give to you...

Break:

No more tears no more scars no psychotic fathers
Lonely nites in our cells without love from eachother
I am yours you are mine and we livin forever...
