"Straight Outta Hell"

The heat is rising, the time is here
the real edification
we're a million dreams, and all its fears
that's the core of this creation

we're comind straigh outta hell
we're comming straigt outta hell

the bursting of the universe
the noiz when worlds collide
we're the eristic propheds in this modern curse
of time we don't confide

in the midnite hour, we rise and come alive
this is the journey of our odyssey
1,2,3,4

we're coming straight outta hell
we're coming straight outta hell
we're coming straight outta hell
we're coming straight outta hell
