### **"Pon This Shallow Blood"**

With my eyes of sorrow  
Witnessing the reality of this world  
Upon which we thrive  
Upon this shallow blood

To hide yourself would only mean regrets  
To live for yourself would only mean more pain

Tear down this creation  
Of a society to which we are programmed to live

Believe in  
Trust in  
I have faith in my destiny

A shallow breath seems like forever  
A divine whisper to save your soul  
There must be a place where we are free  
Torn away from the thoughts of happiness  
Kept locked so far away

There must be a place where we are free
