There's love in the air
Well can you feel it now?
There's love in the air
And that's nice
You're learnin' a lot
About each other's ways
You're learnin' a lot
Ain't that right
You work like a dog, to try and get it good
You work with your heart, every day-ay
You know when you're through
You're gonna take your friend and - get - away
To Acapulco (to Acapulco ...)
That's where they'll find us (find us there ...)
In sunny blue waters
Where the sand is warm and friendly
Hey Acapulco, (hey Acapulco ...)
I hear you softly calling (I hear you call ...)
We're sailin' around the horn of love to Acapulco
It's good and it's bad, when things are goin' right
It's good and it's bad, when they swing
But you know that you're glad, you finally get it right
You know that you're glad, so you sing
But at seventy-two, it's hard to get around
At seventy-two, but not now
It's me and it's you and we can get around
'Cause we know how
In Acapulco, (in Acapulco ...)
Yeah, that's where they'll find us (find us there...)
In sunny blue waters where the sand is warm and
friendly
Hey Acapulco, (hey Acapulco ...)
I hear you softly calling (I hear you call ...)
We're sailin' around the horn of love to Acapulco
We're sailin' around the horn of love to Acapulco
