Maybe tonight  
I will say what's on my mind  
But the words are oh so hard to find

When I try to speak  
It comes out like nervous chatter  
Then my knees get weak  
And I can't stop shaking

I try to relax,  
'Cause I must maintain my cool  
She knows I'm here  
If I don't make a move right now  
She's goin' to disappear

Angel  
I never met a girl that looks like you  
Do-do-do do you even care

Angel  
There's nothing in the world  
That I won't do for you  
Angel

I followed you home  
And imagined me with you  
Girl, I should have known  
When I tried to dial your number  
I'd hang up the phone  
Angel, did you answer

Angel  
I never met a girl that looks like you  
Do-do-do do you even care

Angel  
There's nothing in the world that  
I won't do for you  
Angel

And every time we meet  
I feel like I got two left feet

And you,  
You know what I'm goin' through

When I try to speak  
It comes out like nervous chatter  
Then my knees get weak  
And I can't stop shaking

Angel  
I never met a girl that looks like you  
Do-do-do do you even care

Angel  
There's nothing in the world  
That I won't do for you  
Angel

Angel  
I never met a girl that looks like you  
Do-do-do do you even care  
Angel
