

Neil Diamond "Clown Town"

Visit "[Clown Town](#)" on MotoLyrics.com

When a guy's been made a fool of
By a gal who only wants to play
He goes to a lonely place where lovers
Who are broken hearted stay

They call it clown town, frown town
No joy around town and you see
That's just where I've been stayin'
Since you made a clown out of me

Baby, won't you come and get me?
I can't take it here another day
It's not very hard to find
It's no more than a broken heart away

They call it clown town, frown town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free

They call it clown town, frown town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free
(Till you set me free)

They call it clown town, frown town
No joy around town and you see
That's just where I'll be stayin'
Baby, till you set me free
(Till you set me free)

They call it clown town, frown town
Come on and get me, baby
You know, how much I need you
(Incomprehensible)
