Oh I try to right by you
Yeah, yeah, yeah
Where did it get me?
And I tried to do
Everything I knew
Don't seem fair
Cos look where you left me
You've got me waiting
Out in the back
Under a stack
Stuck in a bin
You been keeping me in
High on a shelf all by myself
Feeling like I'm doing my time
Under a sign
That reads forgotten
Forgotten
Now I'm sending out an S.O.S
Before I drown somebody save me
And I tried you know
That I did my best

You took me down
To where I been lately
You've got me waiting
Out in the back
Under a stack
Stuck in a bin
You been keeping me in
High on a shelf all by myself
Feeling like I'm doing my time
Under that sign
That reads forgotten
Forgotten
Been thinking bout you everyday
Baby not just now and then
There's got to be a better way
Don't wanna be
F, o, r, g, o, t, t, e, n... no
I'm feeling
Like I've been used
You were gone before
We got started
And I know it
Ain't gonna make the news
You led me on
Then you departed

You've left me
Waiting out in the back
Under a stack
Stuck in a bin
That you been
Keeping me in
High on a shelf
All by myself
Feeling
Like I'm doing my time
Under that sign
That reads forgotten
Forgotten
Forgotten
Forgotten
Forgotten
Forgotten
Forgotten
