Written by: neil diamond

Hey little boy  
Just sitting on your back porch  
Picking on your guitar  
Wishing you were far away

Well, I can tell  
You've had a little bit fo a dream  
I see it in your eyes  
I can hear it in the songs you play

And hey little boy  
Just play it like you feel it  
Make it so real  
It's almost to real to take

Just swing it like a player  
Make it like a prayer  
It's one from the heart  
Give it all of the hear it can take

And when you play what you wanna play  
Just reach down to the soul  
You keep on growing and you'll know some day  
That sound is gonna turn into gold

Boy, you're taking me there  
To guitar heaven  
And without saying a word  
You lay it all on the line  
And make me leave my cares  
In guitar heaven  
Just go and play your song  
I could stay all night

Play it son  
(guitar solo)

You know, you're taking me there  
To guitar heaven  
You make me feel every sound

You make it shine like a light  
I'm gonna lose my cares  
In guitar heaven  
You go and play that song  
I'm gonna stay a while

Go and play that song, boy  
I'm gonna stay a while  
The way you play that song  
Makes me wanna smile
